

RAZANADRAKOTO VATOSOA SEDERA

FULL-STACK WEB & MOBILE DEVELOPER

PROFILE

Full-Stack Web and Mobile Developer and UI/UX Designer with a Bachelor's degree in Computer Science. I build modern, high-performance, and visually appealing applications by combining strong technical skills with a user-centered approach. I am currently seeking freelance opportunities or a work-study position to further develop my experience while helping businesses bring their digital projects to life.

-

PROJECTS

- **CV Builder Platform • Django & MySQL** – Web application that enables users to quickly create professional resumes using multiple customizable design templates.
- **Cyber Café Management System • PHP & MySQL** – System for tracking customer connection time and automatically generating billing for a local cyber café.
- **Fast-Food Restaurant Management System • Laravel & PostgreSQL** – Real-time ordering system featuring table management and a seamless customer ordering workflow.
- **School Management & Parent Portal • Django, React Native & PostgreSQL** – Digital platform allowing parents to monitor attendance, grades, homework, online payments, and communicate with teachers.
- **Counter Domino • React Native & Deep Learning** – AI-powered mobile application that scans dominoes through the camera and automatically counts their points. (Collaborative project.)
- **Bus Route Finder • React & Supabase** – Interactive map for locating users, displaying available bus routes, and finding the fastest route.

- **Medication Management System • Java Swing & PostgreSQL** – Desktop application for managing patients (students and teachers) and medication dispensing within a school pharmacy.

All of my projects are available on my GitHub profile.
